S.No.	Suggestions	Action taken
1.	They lack behind in Eng. Communication skills, which I feel, is a major concern for the upcoming CBSE Eng. Med school	The college has conducted spoken English classes through the extension wing. In the third semester, the course Personality Development and Soft Skills focuses on English communication skills. However due to the fact that less time is available for this, special emphasis will be laid on English communication along with the development of various skills under a special program for students starting from this year on every Saturday.
2.	Need more dedication in work	The college has planned a special program for the students to do their work honestly and faithfully. In which we will bring the students in touch with the ideal teachers who are currently working in the schools or with the teachers who are working honestly. There will also be a discussion on social leaders in India. So that the students will be well nurtured and the students will be motivated to work honestly and faithfully
3.	Your students need to be more discipline	The college has prepared a booklet on how students should behave in college. In which cedar guidelines have been prepared on unexpected behavior, consequences of misconduct. And these guidelines are explained to the students by the class teacher at the beginning of the year. Parents of abusive students are also contacted from time to time. In this way, the college has taken various steps regarding the discipline of college students.
